### Docker and Kubernetes

Assignment Date	21 October 2022
Student Name	Team member 3
Maximum Marks	2 Marks

#### 1. Pull an image from docker hub and run it in docker Playground

The screenshot displays the Docker Hub page for the `uifd/ui-for-docker` repository, which is marked as deprecated. It shows the repository's description, a pull command, and a link to the Portainer project. Below this, the Docker Playground interface is shown, featuring a terminal window where the `docker pull` command is executed successfully. The terminal output shows the image being pulled from Docker Hub and the container being run with specific flags.

**UI For Docker**

This repo is deprecated. Development continues at: [portainer/portainer](#)
